

Ground School

at the Challenger Learning Center of Richland One

**ATTENTION
FUTURE
PILOTS!**

Challenger is offering FREE ground training with our Advanced Ground Instructor for Richland One high school students.

Students will receive training based on the FAA Private Pilot Certificate curriculum and complete 73 interactive simulations using our virtual reality immersive simulator.

Training and simulations are organized into 60 lessons.

- Lessons are available weekday afternoons.
- Students (or their parents/guardians) are responsible for transportation to and from Challenger Learning Center.
- Application available online at ChallengerSC.org/Ground-School.

Challenger's Ground School prepares students for the FAA Private Pilot Knowledge Test. Additional details about requirements to earn a Private Pilot Certificate are available at faa.gov/pilots/become.
